DIRECTORS REPORT
FOR THE YEAR ENDED 31ST MARCH 2006

The directors present their annual report and the audited accounts for the year ended 31st March 2006.

Directors' Responsibilities

Company law requires the directors to prepare accounts for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss for that period. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the accounts comply with the Companies Act 1985. In addition, the directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Principal Activity

The company's principal activity during the year was that of haulage and transport contractor.

Review of the Business and Future Developments

The company traded successfully, realising satisfactory operating profit of 7.27% of turnover.

The directors are of the opinion that the current year will maintain adequate returns and the company will continue to progress and benefit therefrom.

The directors consider the financial state of the company to be satisfactory.

FOR THE YEAR ENDED 31ST MARCH 2006

Note 1. Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules, modified to include the revaluation of certain land and buildings.

Turnover

Turnover represents the amounts (excluding value added tax) derived from the provision of goods and services to customers during the year.

Fixed Assets and Depreciation

Depreciation is provided on tangible fixed assets at annual rates calculated to write off the cost, less estimated residual value of each asset over its expected useful life as follows:-

Motor Vehicles) 25% reducing balance
Office Equipment) 15% reducing balance
Plant and Equipment) 20% reducing balance
Buildings) 6½% straight line

Pension Costs

The company operates a defined contribution pension scheme. Contributions are charged to the profit and loss account for the year in which they are payable to the scheme. Differences between contributions payable and contributions actually paid in the year are shown as either accruals or prepayments at the year end.

Deferred Taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing difference that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

Stocks

Stock has been valued by the directors at the lower of cost or net realisable value and this basis has been consistently applied. The stocks are consumables and the cost is determined by applying the weighted average purchase price.
