Directors' responsibilities

The following statement, which should be read in conjunction with the auditors' statement of their responsibilities on page 5, is made with a view to describing the responsibilities of the directors in relation to the financial statements.

The directors are required by the Companies Act 1985 to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company as at the end of the financial year and of the profit or loss for the financial year.

After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the financial statements set out on pages 6 to 13. The directors consider that in preparing the financial statements the company has used appropriate accounting policies consistently applied and supported by reasonable prudent judgements and estimates and that all accounting standards which they consider to be applicable have been followed, subject to any explanations and any material departures disclosed in the notes to the financial statements.

The directors have responsibility for ensuring that the company keeps accounting records which disclose with reasonable accuracy the financial position of the company and which enable them to ensure that the financial statements comply with the Companies Act 1985.

The directors have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.
