B. TICKLE & SONS LIMITED

Notes to the Accounts For the year ended 30th June 2010

1. Accounting policies

The accounts have been prepared under the historical cost convention as modified by the revaluation of certain fixed assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives

| | |
|---------------------|-------------------------------------|
| Land and buildings | 2% straight line on revalued amount |
| Plant and machinery | 15% - 25% on reducing balance |

Revaluation reserve

The revaluation reserve represents the surplus on revaluation of tangible fixed assets and is being credited back to profit and loss account at the same rate as the underlying assets are depreciated

Stocks

Stock is valued at the lower of cost and net realisable value

Deferred taxation

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the Balance Sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less tax

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the Balance Sheet date

B. TICKLE & SONS LIMITED

Notes to the Accounts For the year ended 30th June 2010

1. Accounting policies (continued)

Leasing and hire purchase commitments

Assets held under finance leases and hire purchase contracts, which are those where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet and depreciated over their useful lives. The corresponding lease or hire purchase obligation is treated in the balance sheet as a liability.

The interest element of the rental obligations is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Rentals paid under operating leases are charged to income on a straight line basis over the lease term.

Pensions

The company operates a defined contribution pension scheme. Contributions are charged to the profit and loss account as they become payable in accordance with the rules of the scheme.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
