Report of the directors

The directors present their report and the unaudited financial statements of the company for the year ended 31 March 2013.

Principal activities

The principal activity of the company is managing, in its capacity as a general partner, the activities of Buccleuch and Grant Residential Property Partnership.

The company has not traded in the year, and there has been no income or expenditure. The directors do not recommend the payment of a dividend.

Directors and directors' interests

The directors who served the company during the year were as follows:

P C Grant
D H Peck
N A G Waugh

None of the directors holds a beneficial interest in the shares of the company.

Directors' responsibilities

The directors are responsible for preparing the Annual Report and the unaudited financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable laws). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs and profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently
- make judgments and accounting estimates that are reasonable and prudent
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Report of the directors (continued)

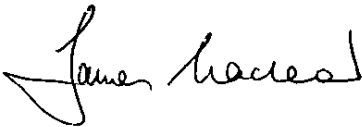

The directors confirm that:

- so far as each director is aware, there is no relevant audit information of which the company's auditor is unaware; and
- the directors have taken all the steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

Small company provisions

This report has been prepared in accordance with the special provisions for small companies under Part 15 of the Companies Act 2006.

BY ORDER OF THE BOARD

J A K Macleod
Secretary

Accounting policies

Basis of accounting

The unaudited financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The company does not have any operating costs and therefore the directors consider the going concern assumption to be appropriate.

Investments

Investments are included at cost less amounts written off. Profits or losses arising from disposals of fixed asset investments are treated as part of the results from ordinary activities.

Financial Instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.
