NOTES TO THE ACCOUNTS

YEAR ENDED 31ST MARCH 2006

1. ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's accounts.

Basis of Preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005).

Fixed Assets and Depreciation

Depreciation is provided to write off the cost, less estimated residual value, of fixed assets over their anticipated useful lives, using the following methods:-

Office equipment and fixtures 25% per annum straight line

Taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

Turnover

Turnover wholly represents amounts invoiced in respect of the provision of nursing care and training, during the year, in the UK.
