Notes to the Abbreviated Accounts

Year Ended 30 September 2012

1. Accounting policies

1.1 Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2 Turnover

Turnover comprises the invoice value of goods and services supplied by the company during the year net of Value Added Tax and trade discounts

1.3 Fixed assets

Tangible fixed assets are stated at cost less depreciation

1.4 Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Plant & Machinery - 15-25% reducing balance

1.5 Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items

1.6 Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease

1.7 Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more or a right to pay less or to receive more tax, with the following exceptions

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets only to the extent that at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted
