Notes to the Abbreviated Accounts

For the year ending 31 July 2010

1 **Accounting policies**

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Going Concern

The company meets its day to day working capital requirements through a bank overdraft facility and a loan from the directors, who have indicated that repayment will not be sought within one year. The directors consider it reasonable to rely on the continuation of this finance. The financial statements have, therefore, been prepared on a going concern basis and do not contain any adjustments which might be necessary if the overdraft facility were not maintained at an appropriate level.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Office equipment	15% on reducing balance
Motor vehicles	25% on reducing balance
