Dr L R E Shead  
Director

## Advanced Control Consulting Limited

### Notes to the Abbreviated Accounts for the Year Ended 31 August 2014

#### 1 Accounting policies

##### **Basis of preparation**

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (Effective April 2008).

##### **Turnover**

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers.

##### **Depreciation**

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

<b>Asset class</b>	<b>Depreciation method and rate</b>
Office equipment	25 % reducing balance

##### **Deferred tax**

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes, which have arisen but not reversed by the balance sheet date, except as required by the FRSSE.

Deferred tax is measured at the rates that are expected to apply in the periods when the timing differences are expected to reverse, based on the tax rates and law enacted at the balance sheet date.

##### **Hire purchase and leasing**

Rentals payable under operating leases are charged in the profit and loss account on a straight line basis over the lease term.

##### **Financial instruments**

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.

**Advanced Control Consulting Limited**

**Notes to the Abbreviated Accounts for the Year Ended 31 August 2014**

..... *continued*

**2 Fixed assets**
